Laughter, raucousness, and realness abound as they seek the redemption they’ve hoped for their entire lives when it comes to identity.

Alternative Winter Break Belize

This December the volunteer center is exploring opportunities to bring a group of 16-18 students to Belize to see a side of the country that most tourists often forget. The poverty in Belize is wide-spread leaving about 39% of all children below the poverty line and lacking basic needs. The nature of the trip will revolve around making a close connection with an orphanage to fully immerse ourselves in Belizean culture. At the orphanage we will be running a camp for the youth when they are out of school for the December holidays. Possible activities include academic tutoring, a sports/fitness program, and beautification projects/construction projects for the orphanage.

Redefining Engagement in Active Leadership (REAL) Project

We are currently accepting applications for the Redefining Engagement in Active Leadership (REAL) Project for this upcoming school year. REAL is an innovative leadership program that links student development and learning to service and action. Students will begin in the Fall and continuing into the Spring semester in participating in retreats, a series of seminars and a panel discussion.

Although the program is tailored to freshman and sophomore students, REAL is open for all students who are interested in developing their leadership skills while promoting social change. This year's theme is "Congregation versus Segregation" which will focus on diverse communities both on and off campus, specifically ethnic enclaves. This program is a great opportunity for your students to engage in discussions of diversity, student perception, multiculturalism, and institutional programs.

The deadline for the application is Friday, September 24th at 5pm. Applications are posted on the Campus Activities website under the "Application Clearinghouse" tab, but are also available at our office, TCC 330. Attached to this e-mail is the application for your convenience.

If you or any of your students have any questions regarding the program, feel free to contact me or Lily Chowana-Bandhu at 213-740-5693
